**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

The amendment filed on October 25, 2007 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention. The claims as amended are now drawn to a method that assesses the occurrence of an oxidative damage-associated polymorphism in two genes, wherein the method assesses the relative susceptibility of the human to oxidative damage or a pathology involving oxidative damage. However, the elected invention was drawn to a method for selecting a dose of an anti-oxidant for administration to a human, wherein each occurrence of a polymorphism indicates an increased dose of a composition for administration. The subject matter of the present claims was restricted from the elected invention in the restriction requirement of October 2, 2002. In response to that restriction requirement, Applicant elected without traverse group II, claims directed to methods for selecting a dose of an anti-oxidant (see the response of November 1, 2002).

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carla Myers whose telephone number is 571-272-0747. The examiner can normally be reached on Monday-Thursday (6:30-5:00).
